Top Skills

Next.js
React.js
Node.js

Certifications

The AI Engineer Course: Complete AI Engineer
Learning Node.js
LangGraph Agentic Workflows
Node.js Essential Training
Learning npm the Node Package Manager

Virender Kumar

Full Stack Developer @ Impressico Business Solutions | Next.js, React.js, Node.js, GenAI, RAG, LangGraph, AI Agents, and scalable cloud-native applications.
Noida, Uttar Pradesh, India

Summary

I’m a passionate and results-driven Senior Full Stack & Engineer with 8+ years of experience building scalable, production-ready applications and AI-powered solutions using React, Next.js, JavaScript, TypeScript,, Node.js, and AWS.My expertise spans the React, Next.js, JavaScript, TypeScript,, Node.js, AWS, SQL and MongoDB, Microservices, REST APIs, GraphQL, OpenSearch, Event-Driven Architecture. What I bring to the table:• Strong full-stack development experience with React, Next.js, Node.js, Javascript, TypeScript, and AWS• Experience designing microservices, REST/GraphQL APIs, cloud-native applications, and scalable system architectures• Practical knowledge of AWS, Docker, CI/CD, and production deployments• Strong focus on clean code, performance, security, scalability, and maintainability• Passion for continuously learning and building impactful AI-powered products Let’s connect if you’re interested in Full Stack Engineering, or building scalable applications.

Experience

Impressico Business Solutions
Full Stack Developer
August 2024 - Present (2 years 3 months)
Noida, Uttar Pradesh, India

Optimized Vercel CI/CD deployment pipelines, reducing build and production deployment failures by 90% and enabling faster, more reliable release cycles.

Reduced backend API calls by 80% by implementing Next.js Static Site Generation (SSG), caching, and performance optimization strategies, significantly improving application performance and user experience.

Led the Strapi CMS upgrade from v4 to v5, refactoring custom plugins, middleware, and database queries, resulting in a 30% improvement in backend response time and improved production memory efficiency.

Reduced monthly infrastructure costs by $12000+ by replacing third-party dependencies with optimized custom React hooks and reusable internal modules, minimizing external dependency overhead.

Designed and deployed automated CRON-based data synchronization services between Strapi CMS and HubSpot, ensuring reliable, production-grade data consistency and synchronization.

Strengthened application security by implementing HTTP security headers, API rate limiting, and bot mitigation strategies, reducing malicious traffic and improving overall platform security.

Contributed to post-acquisition integration initiatives for Pi.ai (Inflection AI) within Microsoft's ecosystem, supporting technical transition, system compatibility, and integration stability.

Biz2Credit

Senior Software Engineer

August 2021 - August 2024 (3 years 1 month)

Noida, Uttar Pradesh, India

Designed and integrated secure eSign and eNACH modules for Tata Capital's SME Loan platform, enabling compliant, end-to-end digital loan processing and reducing dependency on manual verification.

Architected and implemented the "Sugam Loan" digital approval workflow, optimizing business logic and API orchestration to significantly reduce loan approval turnaround time and improve the user experience for SME applicants.

Reduced production defects by 75% through systematic code refactoring, performance optimization, structured logging, and improved testing workflows, resulting in higher platform stability and reliability.

Engineered a modular, reusable workflow framework using component-driven architecture and configurable business rules, accelerating feature rollout across multiple loan products and improving development scalability.

HestaBit

1 year 6 months

Senior Software Engineer
May 2020 - August 2021 (1 year 4 months)
Noida, Uttar Pradesh, India

PHP Developer
March 2020 - August 2021 (1 year 6 months)

ProProfs

1 year 5 months

PHP Developer
October 2018 - February 2020 (1 year 5 months)

Software Engineer
November 2018 - January 2020 (1 year 3 months)
Noida sector 81

Education

HMR Institute of Technology and Management

Bachelor of Science, Computational Science

Guru Gobind Singh Indraprastha University

Bachelor of Technology - BTech, Computer Science · (2013 - 2017)
