Virender Kumar

Senior Full Stack AI Developer

9821592146 | virenderfullstack@gmail.com | Virender Kumar LinkedIn Profile | Noida, India

SUMMARY

A **Senior Full-Stack AI Development Professional** with **7+ years of experience** building **scalable, cloud-native applications**, with expertise in **Next.js, React, Node.js, and AWS**. Proficient in developing **Generative AI solutions** using **RAG, vector databases, and LangGraph workflows**.

Delivered measurable business impact by **reducing deployment failures by 50%**, **backend API calls by 40%**, **backend response time by 30%**, and **production defects by 50%**. Focused on **clean architecture, performance optimization, and security**, while collaborating closely with **clients and cross-functional teams** to deliver **reliable, high-quality products**.

EXPERIENCE

Senior Full Stack AI Developer

Impressico Business Solutions

08/2024 - Present | Noida, India

- **Led the Strapi v4 to v5 upgrade** and refactored plugins, middleware, and queries, **improving backend response time by 30%**.
- **Saved $1,200+ annually in infrastructure costs** by replacing third-party dependencies with **custom React hooks and internal modules**.
- Built **automated CRON-based synchronization** between **Strapi and HubSpot**, ensuring reliable data consistency.
- **Optimized Vercel CI/CD pipelines**, **cutting deployment failures by 50%** and accelerating release cycles.
- **Reduced backend API calls by 40%** using **Next.js SSG and caching**, improving application performance and user experience (UX).
- **Strengthened application security** through **HTTP security headers, API rate limiting, and bot mitigation**, reducing malicious traffic.

Full Stack Developer

Biz2Credit

08/2021 - 08/2024 | Noida, India

- Built **secure e-sign and e-nach modules** for **Tata Capital's SME loan platform**, enabling **end-to-end digital loan**.
- **Architected the "Sugam Loan" digital approval workflow**, accelerating loan approvals and enhancing the **applicant experience**.
- **Reduced production defects by 50%** through **code refactoring, structured logging, and improved testing practices**.
- Built a **reusable, configurable workflow framework** that **accelerated feature rollout** across multiple loan products.

Laravel Developer

HestaBit

04/2020 - 08/2021 | Noida, India

PHP Developer

ProProfs

11/2018 - 01/2020 | Noida, India

SKILLS

Frontend Technologies

- Next.js
- React.js
- TypeScript
- JavaScript
- Angular
- HTML
- CSS
- Tailwind

Backend Technologies

- Node.js
- Python
- Strapi
- Microservice
- GraphQL
- Rest APIs
- Flask
- Express
- Laravel
- PHP

AI Technologies

- LLM
- Gen AI
- RAG
- Agentic AI
- LangGraph
- Lang Chain
- MCP

Database Technologies

- PostgreSQL
- MySQL
- MongoDB
- Vector Database
- Pinecone
- Chroma
- FAISS

Deployments

- Lambda
- Open Search
- Amazon web service (AWS)
- Cognito
- CI/CD
- GIT

AI Assistance Tool

- Claude AI
- Cursor
- GitHub Copilot

KEY ACHIEVEMENTS

Academic Achievement – Mathematics (Class 10)

Achieved **100% marks in Mathematics** in the Class 10 Board Examination, demonstrating strong numerical aptitude, analytical thinking, and problem-solving skills.

Cost Reduction

Reduced annual infrastructure costs by $1,200+ by replacing third-party dependencies with optimized, custom-built solutions.

Backend Performance Boost

Improved backend response time by 30% through strategic platform upgrades and performance optimizations.

API Efficiency Gain

Reduced backend API calls by 40% through strategic caching and performance optimization techniques.

Defect Reduction

Reduced production defects by 50% through systematic code refactoring, improved test coverage, and rigorous testing practices.

PROJECTS

Legal Technology Hub

08/2024 - Present Noida, India

https://www.legaltechnologyhub.com

Legaltech refers to software and digital tools that help law firms, corporate legal departments, and individuals deliver, manage, and access legal services more efficiently.

- Tech: Next.js, TypeScript, Node.js, PostgreSQL, Strapi, AWS, Tailwind, Vector Database, Generative AI, RAG

Gunner Roofing Platform

10/2025 - 06/2026 Noida, India

https://www.gunnerroofing.com

The **Gunner Roofing Platform** is a digital, tech-forward home improvement system that lets homeowners get accurate, instant roof quotes and complete a full roof purchase online.

- Tech: Next.js, TypeScript, Node.js, MongoDB, Tailwind

Pi. Ai

09/2025 - 11/2025 Noida, India

https://pi.ai

Pi is an emotionally intelligent personal AI created by Inflection AI designed for natural conversations, active listening, brainstorming, and daily task management.

- Tech: Next.js, TypeScript, Node.js, MongoDB

Loan Origination System – NBFC in a Box

07/2022 - 08/2024 Noida, India

https://www.biz2x.com/india/

- Tech: Angular, React, Node.js, AWS Lambda, MongoDB

Tata Capital SME Loan Platform

08/2021 - 08/2024 Noida, India

https://www.tatacapital.com/business-loan.html

- Tech: Angular, React, Node.js, AWS Lambda, MongoDB

EDUCATION

Bachelor in Technology from Computer Science

HMR Institute of Technology and Management

05/2013 Delhi, India

- Computer Science

GPA **6.7** / 10

LANGUAGES

English Proficient

TRAINING / COURSES

The AI Engineer Course: Complete AI Engineer

Certificate: **The AI Engineer Course: Complete AI Engineer**

AI Engineer Agentic Track: The Complete Agent & MCP Course

Certificate: AI Engineer Agentic Track: The Complete Agent & MCP Course

LangGraph Agentic Workflows

Certificate: LangGraph Agentic Workflows

Master Vector Databases

Certificate: Master Vector Databases

SOLID Design Principles

Certificate: SOLID Design Principles

MongoDB - The Complete Developer's Guide
