PROFILE

Senior Fullstack Engineer | MERN

TypeScript | React.js, Node.js, AWS, Microservices Architecture

Innovative Senior Full Stack Engineer with 6.5+ years of experience in designing, developing, and deploying modern, scalable web applications. Skilled in crafting responsive, high-performance front-end interfaces using Next.js, React.js, and Angular, and building robust backend systems with Node.js, Strapi, and Laravel. API integrations (GraphQL, REST, SOAP), and cloud deployments (AWS, Vercel). Experienced in driving full lifecycle product development — from ideation to production — while ensuring performance, security, and maintainability. Strong background in TypeScript, Docker, CI/CD pipelines, and modern DevOps practices. Optimizing workflows, mentoring teams, and delivering solutions that blend innovation with business impact.
